As always we negotiate hard to keep any price increase to an absolute minimum, but there are factors beyond our control and so we have to pass these increases on. We remain committed to maintaining a pricing policy that is consistent and competitive.

For environmental reasons and to keep our costs as low as possible, we will be moving such communications into digital format in the near future to ensure you receive quick notification of price increases. Please ensure that your branch has your current e-mail address on our systems.

Due to the many challenges faced by suppliers at the moment, price increases are arising at short notice and we understand from our suppliers that further increases are on their way.
